ABOUT ME

I am a UI-UX Designer and Graphic Designer from Korea.

Creating and building website can make me enormous communication space international users. That means I love make creative digital artworks and conversation with others. Also, I can do the HTML & CSS, J-Query, Photoshop, Illustrator.

I usually focus on web site the how easily use for users and improve UX and UI designs.

Also, I love design and programming interfaces to accomplish specific tasks. I able to design intelligible Web or screen interfaces, and I hope to satisfy users and clients what they want and want to make memorable one.
